

STUDENT STRATEGY & BUSINESS DEVELOPMENT, BASED IN COPENHAGEN

Impactful job with real contributions to the green transition and improving living conditions in developing countries and emerging markets.

IFU is Denmark's Development Finance Institution and a leading emerging market impact investor. We think innovatively about ways to deploy our capital, attract and mobilise other investors, and drive sustainable impact in emerging markets by making commercial private sector investments that support the green transition, as well as building just and inclusive societies in developing countries and emerging markets.

End of 2023, IFU initiated a growth and transformation journey when the Danish government announced a capitalisation plan that will more than double IFU's investment activity by 2030. We are therefore hiring a strategy manager who will play a pivotal role in shaping IFU's strategic direction and growth journey.

The job

You will be part of the Strategy & Business Development team, which is responsible for strategy work and implementing projects initiated by the management. We work with senior leadership to develop IFU, and enable the organisation to grow and further strengthen our position as a leading impact investor in emerging markets. The main responsibilities of the department include:

- Define and drive priority initiatives in strategy implementation together with the business units, including setting appropriate KPIs and processes to track and review implementation

- Support the development of business unit strategies, including IFU's investment strategy in close collaboration with the Investment management team
- Develop strategies, tools and process that will enable IFU to deliver on its investment targets
- Lead annual corporate business planning
- Develop updates to capital plans and investment mandates with IFU's owner, the Danish Government
- Produce insights, recommendations, and fact-based decision material based on research and analysis for IFU leadership and business units

Reporting to the head of Strategy & Business Development, you will contribute to the department's tasks working on projects alongside your colleagues in the department. Your contributions will be centred around producing analysis and presentations, and executing smaller projects owned by the department.
