RISK CAPITAL FOR AGRIBUSINESS PROJECTS

The Danish Agribusiness Fund (DAF) offers risk capital and advice for agribusiness projects in developing countries and emerging markets covering Asia, Africa, Latin America and Central and Eastern Europe.

DAF is ready to co-invest with companies as well as developers wishing to supply technology to, develop or operate businesses within the entire agribusiness value chain from farm to fork.

COMMERCIALY

VIABLE PROJECTS

Agribusiness projects co-financed by DAF must be commercially viable and offer an attractive return to its investors.

As a minority investor, DAF is prepared to participate with risk capital in the form of equity or mezzanine financing in the range of EUR 2m to EUR 15m in a single project.

INVESTMENTS WITH **A DANISH INTEREST**

For projects to qualify for co-investment by DAF, Danish investors or Danish know-how, services or technology must be included. We define this as a Danish economic interest. In selected projects, DAF is willing to assist non-Danish companies or developers in establishing contact with relevant Danish partners to form a Danish economic interest.

IFU is an important partner that contributes with risk capital, local knowledge and business expertise. At the same time, IFU's governmental status validates our business when dealing with host authorities, which is of great importance.

Claus Ewers, Chairman of the Board, Scandinavian Farms Pig Industries Ltd.
